

BenchmarkInterfejs

IObserwowany

StrukturyBenchmark< Typ >

```
graph BT; SB[StrukturyBenchmark< Typ >] --> BI[BenchmarkInterfejs]; SB --> IO[IObserwowany];
```

The diagram illustrates a generalization relationship. A box labeled 'StrukturyBenchmark< Typ >' is positioned below two boxes, 'BenchmarkInterfejs' and 'IObserwowany'. Two arrows originate from the top of the 'StrukturyBenchmark< Typ >' box and point upwards to the bottom of the 'BenchmarkInterfejs' and 'IObserwowany' boxes, indicating that 'StrukturyBenchmark< Typ >' inherits from or implements both interfaces.
